Thank you for your permission request dated November 14, 2005, we are pleased to grant you non-exclusive, non-transferable permission, English rights, but limited to **print format** only, provided you meet the criteria outlined below. Permission is for one-time use and does not include permission for future editions, additional printings, updates, any electronic forms, databases, translations, or any other matters. Permission must be sought for each additional use. This permission does not include the right to modify APS material.

Please print the required copyright credit line on the first page that the material appears: "Reprinted (abstract/excerpt/figure) with permission from [FULL REFERENCE CITATION] as follows: authors names, journal title, volume number, page number and year of publication. Copyright (YEAR) by the American Physical Society.

You must also obtain permission from at least one of the authors for each separate work, if you haven't done so already. The author's name and address can be found on the first page of the published Article.

Use of the APS material must not imply any endorsement by the American Physical Society.

Permission is granted for use of the following APS material only:

- Fig. 3, Phys. Rev. Lett. 63, 2212 (1989), "Tunneling Ionization of Noble Gases in a High-Intensity Laser Field" by S. Augst, D. Strickland, D. D. Meyerhofer, S. L. Chin, and J. H. Eberly
- Fig. 1, Phys. Rev. A 61, 023412 (2000), "Multielectron dissociative ionization of molecules by strong femtosecond pulses" by M. Brewczyk and K. Rzazewski
- Fig. 1, Phys. Rev. Lett. 85, 2288 (2000), "Hydrodynamic description of laser-induced Coulomb explosion for small molecules" by Ph. Hering, M. Brewczyk, and C. Cornaggia

Permission is limited to the single title specified or single edition of the publication as follows:

- Dissertation by Kun Zhao entitled "Ultra-Fast Dynamics of Small Molecules in Strong Fields"
